*Dear Mr. President Captijn
Dear friend Frans,*

First of all allow me to congratulate you, for the successful activity you are developing with your newly grounded EISEA Foundation.

Your involvement and determination to help people all around the world reflected in your readiness and quick answer to our needs, by providing us with the necessary equipment to fight car crashes and other emergency situations that would require our intervention.

The supplied equipment and materials are of real great help for the Fire Brigade “Bistrita” of the county Bistrita Nasaud, and especially for the inhabitants of our county, in whose name allow me to thank you.

All the equipment arrived in very good condition, and hereby you receive from us the reception protocol for the entire load.

We wish you good luck with the foundation and may you help as many people as possible in all kind of emergency situations.

Yours faithfully,

*Col. Stefan Condrate
Commander of the Fire Brigade “Bistrita”*
